

Gauteng Intergovernmental Relations Strategy and Implementation Plan

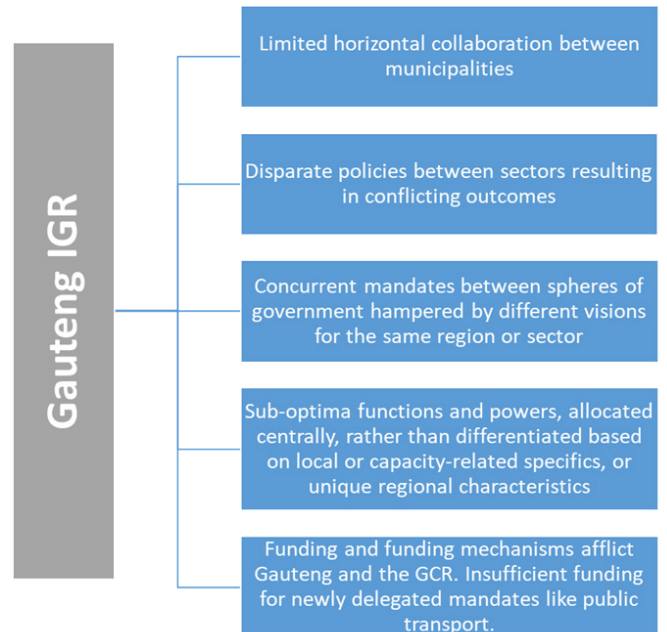

The Gauteng Office of the Premier working with the Department of Cooperative Governance and Traditional Affairs (CoGTA), municipalities and other stakeholders developed the Gauteng Intergovernmental Relations Framework (GIGRF), adopted by the provincial Executive Council and the Premier’s Coordination Forum (PCF) in 2010. Outdated and non-reflective of the vision of the then provincial government’s Fifth Administration which introduced the Ten Pillar Programme to transform the province into a Global City Region (GCR), was in need of review.

PDG undertook to review and update the GIGRF and develop an IGR Strategy and Implementation Plan aligned to the Fifth Administration and the tenets echoed in Gauteng’s Long-Term Plan for the GCR - a seamlessly integrated and globally competitive city region.

Applying a mixed-method approach that involved a desktop literature and document review, international cross-comparative benchmarking; key informant consultations; and a stakeholder workshop, the review and update to the GIGRF was completed.

The IGR Strategy addressed the challenges below strengthening the practice of IGR in the province to facilitate the GCR. The Strategy was supported by an Implementation Plan detailing how the provincial government realises IGR.
