## KEY PROJECTS

---

**2023- Provision of technical advisory services to National Treasury’s inter-governmental relations branch for the cities support programme to enable streamlined reporting by eight metropolitan municipalities:** Delivered technical support to the National Treasury in the implementation of MFMA Circular 88 indicators. Conducted comprehensive data analysis, presentations for Technical Working Groups (TWGs), and efficiently administered and managed an electronic survey for streamlined data collection.

**2023- Innovations to water tariff structures to support revenue sufficiency while promoting conservation:** PDG was appointed by the Water Research Commission (WRC) to undertake research to make DWS and WSAs aware of a Consumption Based Fixed Charge (CBFC) and up to two other innovative tariff structure as a possible component of a water tariff structure, and to identify the conditions under which a CBFC and the other innovative tariff structures are appropriate for a South African WSA. Assisted with the literature review and provided support in stakeholder interviews.

**2023- Performance Based Contracting for Non-Revenue Water:** PDG was appointed by the Water Research Commission to undertake a study of examining Performance Based Contracting (PBC) for Non-Revenue Water (NRW) and its relevance in the South African context. Played a role in conducting the literature review and contributing to the report-writing process.

**2023- Evaluation of the Reading and Learnership Strengthening in South African Schools for Learning during Covid-19 and Beyond (REALS SA) Programme:** Contributed to data collection and performed qualitative data analysis using NVivo software. Additionally, played a role in coordinating and conducting stakeholder interviews, and support.

**2023- Professional services to conduct urban development research for the City of Cape Town (CCT):** Collaborated as part of the PDG team alongside PERCEPT to successfully institutionalize an Urban Health Conceptual Framework for the City of Cape Town. Contributed to the scoping review, as well as the qualitative data collection and analysis processes.

**2015-2017-** Actively involved in outreach programs and volunteered at old age homes such as Baitul-Amman.

**2015-2017-** Volunteer for the Jive Big walk water points.

**2016-2017-** Volunteer at Red Cross Children’s Hospital.

**2016-2017-** Eco-club core member at Islamia College (Events management)

**2019-** Initiated and coordinated a soup drive initiative in which we distributed food to the various informal settlements in Cape Town.
